Section B

Confidential health questionnaire

Please tell us about past and present medical history for ALL applicants (this includes members who have previously been covered under a group policy) to be covered under this policy.

Please note - we require you to disclose every aspect of the medical history for all applicants. This includes telling us about any changes to any medical conditions, treatment or medication and any outstanding, ongoing or repeat medical tests that have been suggested.

If any applicant fails to inform us about a condition which we reasonably believe to have existed prior to the policy initial start date (whether the condition was already present, the applicant had symptoms, or taken advice from a medical practitioner); this could (subject to local law and regulation) result in us reducing the amount of any claims payment, which the applicant is due or in refusing to pay a claim or claims related to such condition altogether.

Once this application has been submitted we may need to contact the applicant for further information before we can finalise the cover. If any applicant needs help completing this application, please contact us. If the applicant is unsure about the answer to any question the applicant should make the enquiries necessary to allow an accurate answer to be provided.
